# Counting 15

10-31-01

I like this because  
I had to get up to  
fifteen. I learned  
that you can use  
more numbers  
that two to do  
math.

00-31-01

(15)

$$5 + 5 + 5 = 15$$

$$8 + 2 + 3 + 1 + 1 = 15$$

$$2 + 0 + 5 + 5 = 15$$

$$2 + 3 + 6 + 4$$

$$1 + 2 + 3 + 4 + 5 = 15$$

I like this  
because it  
has more than  
one pattern.

# Counting 16

1-16-02

I like this because  
it has more than  
one pattern.

I like this

I did one hundred  
problems.

As I was walking four blocks home from school, I measured the blocks. They were three feet long. It took me an hour and ten minutes. I counted how many kilometers it was. It was four hundred meters. Then I counted the inches. It was twenty inches. On every block I counted how many seconds the block were. They were eighty seconds. I counted the miles it was. It was thirty miles. I counted the yards it was. It was two yards. The End
